Hope Chapter

### OVERVIEW

This will be southern California's first ever Hummer Club Event co-sponsored by Predator Motorsports. This is a HUMMER ONLY Event. This outing will co-mingle Hummers into teams with varied levels of experience. This should even out the playing field and help newer drivers gain experience and confidence. So, please be honest with your level of experience when registering. Teams will be chosen through a lottery along with various routes to be navigated. This course will be approximately 4-5 GPS 'targets.' It will be up to each team to work together and plot out their assigned routes in a timely manner. It will be a timed course along with some surprises along the way. We hope to make this event challenging and fun. Additional information will be furnished during the registration and social hour Friday evening.
