

AOAA – June 2013

Join the Hummer Club as we explore the latest adventure park in Pennsylvania

[Anthracite Outdoor Adventure Area or AOAA.](#)

AOAA will be a multi-use outdoor area with miles and miles of 4x4 trails and challenges. Ultimately planned as more than just a place to four-wheel, The Hummer Club has been an active participant and supporter in helping AOAA get off the ground. There have been a couple smaller club events at AOAA in preparation for their opening to the general public in 2013.

[AOAA](#) covers 6500 acres of land with over 100 miles of trails that are certain to satisfy all skill levels from mild to wild. The club will be hosting a multi-day event at AOAA with registration on June 20th and two days on the trails: June 21st and June 22nd. AOAA is within easy driving distance of many cities near the East Coast.
