

# **Expedition MOAB 2013**

The best wheeling, on the best trails – Moab is Hummer Heaven for a reason!

Here are the 5 W's:

## **Mechanical Support:**

Unlike in previous events AM General is not providing support for Moab this year. We have lined up and will have on hand the majority of spare parts that may be required for H1, H2 and H3. Several dealers have agreed to provide 2<sup>nd</sup>-day shipping of any part we may not have to hand.

Jerry Seiner of Salt Lake City is providing their awesome Hummer Tech to support the event. Other knowledgeable owners will also be available to help keep everything running. Not having AMG support is the situation that the club has been in for several years now, except this time we are making arrangements to have many spares on hand. We thank Jerry Seiner and their tech for agreeing to support the event, as well as those parts suppliers who are helping with spares..
